Spring Months Cause Sickness—Breathe Hyomei, and Be Cured of Catarrh.

Catarrhal troubles are more common at this season than at any other time of the year. The sudden changes that come during the spring months are productive of many cases of catarrh that without proper treatment will become chronic.

The pleasantest, most convenient, and only scientific method for the treatment and cure of catarrh, is Hyomei. Simply put twenty drops in the little pocket inhaler that comes with every outfit, and then breathe it for three minutes four times a day.

No dangerous drugs or alcoholic concoctions are taken into the system when Hyomei is used. Breathed through the inhaler, the balsamic fragrance of Hyomei penetrates to the most remote cells of the nose and throat, and thus kills the catarrhal germs, heals the irritated mucous membrane, and gives complete and permanent cure.

Thousands of testimonials have been given as to the astonishing cures made by this remedy. J. S. Nugent, treasurer of the New York Life Insurance Company, writes: "Hyomei has completely cured my daughter of catarrh, from which she has been a sufferer for years."

The complete Hyomei outfit costs but one dollar, and as the inhaler will last a lifetime and there is sufficient Hyomei for several weeks' treatment, it is the most economical catarrhal remedy known. Extra bottles can be procured for fifty cents. Ask Rickert & Wells to show you the strong guarantee under which they sell Hyomei.

Two Peculiar Springs.

In Korea there are two springs situated at a considerable distance from each other—in fact, they have the breadth of the entire peninsula between them. They have two peculiarities. When one is full the other is always empty, and, notwithstanding the obvious fact that they are connected by a subterranean passage, one is bitter and the other pure and sweet.

Spurr's Health Tea!

The very small amount of tannin contained in Spurr's Health Tea makes it, while one of the richest Teas, the least exciting to the nervous system. Note what Professor Sharples says of Spurr's Health Tea: "The sample of Tea marked 'Spurr's Health Tea,' received from you, yields on extracting for five minutes with boiling water tannin 4.02 per cent. (Signed) S. P. Sharples."

The quantity of tannin yielded by the average Tea is 10.18 per cent. This should appeal to every tea drinker. There is only one store in Barre where Spurr's Teas and Coffees can be purchased, and that is at
